

**VOLUNTARY REMEDIATION PROGRAM
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

PROJECT SUMMARY

Site Name:	MascoTech Stamping Technologies
Applicant's Name:	MascoTech Stamping Technologies
Site Location:	Swiss Way & McIntosh Road Berne Adams County
VRP Site Number:	6960104
Project Manager:	Karla McDonald
Date Application Received:	January, 1996
Date Project Completed:	January 15, 1997
Project Duration:	1 year
Contaminant Group(s):	Petroleum, Semi-Volatile Organic Compounds (SVOCs)
Media Cleaned Up:	Subsurface Soil, Groundwater
Cleanup Goals Achieved:	Tier II Residential
Deed/Land Use Restrictions:	None

Project Description: This site entered the VRP to address petroleum-related contamination, which was found to be oil-related products which were either leaking to subsurface soil from underground drain pipes or from on-site disposal pits. During the investigation, it was found that groundwater had not been impacted by the oil-related products. The site used excavation and disposal to address soils in the areas that it was practical. A portion of the impacted soils were located underneath a building. The site proposed to seal the floor, re-route and/or plug the drains and leave the soils capped by the building.
